Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

1-27. Claims 1-6, drawn to a Prn promoter, and vectors and plants comprising it, classified in class 800, subclass 298, wherein

Group 1 corresponds to SEQ ID NO:4;

Group 2 corresponds to SEQ ID NO:5;

etc.

28. Claims 7-10, drawn to a promoter of SEQ ID NO:51, and vectors and plants comprising it, classified in class 800, subclass 298.

29-47. Claims 11-17, drawn to a promoter comprising a PTME operably linked to a promoter element from Table 1, and vectors and plants comprising it, classified in class 800, subclass 298, wherein

Group 29 corresponds to atpB -611;

Group 30 corresponds to atpB 502;

etc.

Inventions 1-47 are independent and distinct, each from the other because:

Different nucleotide sequences are structurally distinct chemical compounds that are unrelated to one another. These sequences are thus deemed to normally constitute independent and distinct inventions within the meaning of 35 U.S.C. 121. Each sequence requires an independent search of the sequence databases. Absent evidence to the contrary, each such nucleotide sequence is presumed to represent an independent and distinct invention, subject to a

Art Unit: 1638

restriction requirement pursuant to 35 U.S.C. 121 and 37 CFR 1.141 et seq (see MPEP 803.04 and 2434).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, fields of search, and classification, restriction for examination purposes as indicated is proper.

Applicant is advised that for the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
